welcome

Back Home Stephanians!!

Together we stand, together we're stronger

Very few institutions can match the immense global reach of the alumni of St Stephen's. Across every field – governance, industry, jurisprudence, R&D, education, public policy, sports, politics and many more; across every continent from Japan to Australia to Europe, Russia and the Americas alumni from College have impacted countries, corporations and human lives in long-lasting ways. And for over 142 years. Now that's a very

Very few institutions can match the immense global reach of the alumni of St Stephen's. Across every field – governance, industry, jurisprudence, R&D, education, public policy, sports, politics and many more; across every continent from Japan to Australia to Europe, Russia and the Americas alumni from College have impacted countries, corporations and human lives in long-lasting ways. And for over 142 years. Now that's a very difficult feat to match.

The Alumni Association of St Stephen's College which was formally established in 2017 now boasts of members in over thirty countries. Chapters are there all over India and in all the continents barring Greenland, as of now. The membership is growing and the need to redo the web portal is a direct effect of the increase in number of alumni and the wide exodus of our alumni across the world. This web-space is another effort to bring back College alumni closer to its alma mater.

At St. Stephen's we value our legacy, diversity and the pursuit for excellence. When one person can make a difference, imagine what a community of excellent people who are determined to serve can do to our world. Come together because no ONE of us is as strong as ALL of us.

We sincerely hope you will appreciate and activate our alumni community over the pages that follow in this web-space. Welcome!

Fond Memories of our College Days and Reminiscence

★ Chandan Mitra (Class of 1972 , BA (Hons.) Economics) - And the Women Arrived

It happened without warning. Some of us had returned to Delhi a fortnight before University was to reopen that fateful summer of '75. The Emergency had been declared on June 25 while I was still on the train from Calcutta. There was a palpable air of eeriness on the Campus; in fact over Delhi as a whole. Then the bombshell hit us. College was going co-ed. For us it was almost a world turned upside down. It was the end of history. Catastrophe. Apocalypse. Doomsday. All rolled into one.

Looking back all this seems rather hilarious. I don't know why we feared women so. But at the

Kindness is more infectious than Covid-19

How St. Stephen, College, fundraising come to be:

The call

It started with a simple phone call. A phone call between then College Bursar, Dr. Renish Abraham, and an alumnus who in 2018 had set up an annual scholarship in memory of his late grandparents. Due to Covid-19 restrictions and lockdowns, the 2020 selection process could not be completed so a decision was needed on what to do with the amount. Dr. Shachi Gurumayum (Chemistry, '98), an alumnus, had set up the MaoKeki Memorial Scholarship to support one bright student with demonstrated financial needs from his native state of Manipur. However, he had always wished to establish more scholarships to support students from anywhere in India. By the end of the call an idea had sparked into being!

Mr. Amit Kumar (Chemistry, '97), original, from Bihar and current, bas. In Texas, USA, was only just
