

## CAMPUS PLACEMENT CELL WORK REPORT 2022-2023

The Campus Placement Cell of St. Stephen's College is the body that ensures that the Junior Member community is equipped with all necessary information and assistance in obtaining the holistic academic experience that our institution strives for by reaching out to external organizations for various opportunities that are not limited to just placements and internships.

The placement season of 2022-23 has been quite successful with over 81 firms showing interest in recruiting students. This placement season, 43 companies extended a total of 57 offers to the students. The processes were held in virtual mode ensuring both the companies and the students were comfortable with the new mode of procedures this academic year.

World's top consulting firms such as McKinsey & Company, Boston Consulting Group, Kearney and Accenture have extended 30 offers this year. Top financial institutions such as Morgan Stanley, Nomura, and ICICI Bank have extended 11 offers this year. The average base pay package offered this year is 10.12 LPA and the average CTC offered this year is 13.6 LPA. We also saw WhiteOak Capital Management, Fullerton India, Stealth Edtech Startup (Raam Group), Eltropy, Redseer Strategy Consultants, MXV Consulting, Fuld & Company, Prototyze, and CEEW come on campus for the first time and they have extended 7 offers.

The Internship Conclave 2022-23 also known as I-Con has also been successful, with over 29 companies extending over 48 offers to the Junior Members. Top firms such as Hindustan Unilever Limited, Deutsche Bank, JSW, and Bajaj Capital have also participated in the Internship Conclave this academic year and have extended 10 offers. Apart from Placements and Internships, this year we have also focused on higher education opportunities through the Young India Fellowship (Ashoka University). We also facilitated the Junior Members to attend sessions conducted by Indian Political Action Committee, Ernst and Young, Teach for India and Cases for Change.

As part of the Consulting Club, a vertical under the Campus Placement Cell, we organized a series for University Admissions where alumni who are currently pursuing Masters from universities like Cambridge, Oxford, Erasmus and London School of Economics come to help students make well-informed decisions for their future. Separate sessions were held for both the Arts and Science streams.

Sessions on competitive examinations like IIT JAM and CAT were also conducted. In addition, we also organized an Internship session, a CV Building workshop, LinkedIn Basics & Profile Optimization, 7 placement preparation sessions and sessions on cracking consulting interviews.

CPC, as in the past, aims to work with the Junior Member community in obtaining a well-rounded experience that simply cannot be overlooked for their future prospects. The Cell always strives for the Junior Member to have access to opportunities as varied as possible so that they are empowered to not be

restricted to certain domains. We sincerely hope we can maintain and keep improving our activities for the benefit of the Junior Member community.
